Our unparalleled expertise in restoration adds value to pumps have fetched record sums at auctions in Canada known entities in the automotive collectors market in the best pumps available.

If it's collectible, we have likely restored it over the years. We have refurbished gas pumps from the earliest gravity feed units right through to pumps from the 1970's. The oldest pump we have rescued was a 1912 Bowser curb hand crank. We have restored some of the rarest pumps available, many with only 2 or 3 examples known to exist in the world.

We have recently opened our own auction house, BK SuperAuction, to better serve our clients in the memorabilia and nostalgia markets. We will soon have our website storefront online to supply globes, nozzles, dial faces and many other pump accessories. In addition to gas pumps we offer many other restored collectibles such as lubsters, air meters, island lights, soda coolers and oil can racks. If it's related to old time service stations we likely either have it or can get it. We can also supply reproduction gas pumps.

Whether you are starting out or a seasoned collector we are ready to fulfill your needs.
